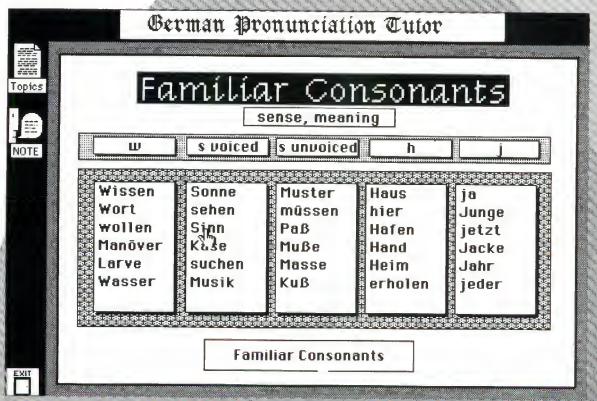
LinguaROM™

The Foreign Language CD-ROM with Sound

"Move over Berlitz; HyperGlot is here." ***Business Week***

Lingua-ROM is a CD-ROM that contains all the HyperGlot language tutor lessons listed on the back of this flyer. It contains lessons for learning the following languages:

- Spanish
- Russian
- Italian
- Japanese
- French
- German
- Chinese



These language tutors include introductory lessons as well as noun, verb, and grammar tutors. The "word tortures" drill you on what you've learned.

The digitized sounds make it easy for you to learn proper pronunciation. Requires a macintosh-compatible CD-ROM drive, a hard disk drive, and HyperCard 1.2 or later.

#1358 only $499

OVER 140 CD-ROMS AND DRIVES FOR THE MACINTOSH

Foreign Language Software

from HyperGlot

Word Torture: Automated drill on 1400 to 1600 of the most commonly used verbs, nouns, adjectives, adverbs, and comparatives. Completely user modifiable. Extensive features including retesting of missed words.

Pronunciation Tutors: Uses digitized sound to aid students in learning correct pronunciation and intonation. Unusual aspects of pronunciation are explained at length.

Verb Tutors With Sound: Extensive drills in verb conjugation and the proper use of all tenses with extensive, on-line reference materials. Each of the 200 sentences is read in high-quality digitized sound by a native speaker of the language.

Grammar Exercises: Virtually a complete grammar course, from nouns and articles through subjectives. Extensive text and 100s of interactive exercises. User modifiable.

German Passive Voice Tutor: Rigorous drill in transformation of active voice to passive. Excellent tutorial included. Drills on case and syntax as well.

Russian Noun Tutor: Extensive reference material on the declension of Russian nouns available at the click of a button. Drills on 300 forms of Russian noun declensions in sentence contexts.

KanjiMaster: Over 325 Kanji characters and 100s of compound words on 12 diskettes, all reproduced in high-quality, digitized sound recorded by a native speaker of Japanese. Set your own speed for the drills. Select which Kanji to include in your drills. Mistakes are recorded and may be printed. Has Browse Mode, Pronunciation Drill, English Meaning Drill, Japanese Drill, Dictation Drill, and Stroke Order Practice.

Other fine HyperGlot Products forthcoming: Grammar Exercises in Russian, French, and German, as well as RefBase, the reference tracking database system and bibliography generator of the future.

Requirements: HyperCard version 1.2 or later to run these stacks. The stacks will run on any machine that can run HyperCard, that is, Macintosh Plus, the Macintosh SE family, and the Macintosh II family. A hard drive is not required except as indicated. All other products will work on any of the machines mentioned above with an external drive. However, we do recommend a hard drive for the Pronunciation tutors for convenience. A Macintosh-compatible CD-ROM drive and hard disk drive are required for the Lingua-ROM.
